

V6000 HDD *max*

High energy 7260 gauss field

Fast, reliable conveyor system

Single pass erasure of hard drives

High throughput

Average 6 second erase time per drive

Infrared remote control operation

The vulnerability of information stored on PC hard drives is a recognised security risk. Unlike other PC data storage media the hard drive always stays with the PC. Every time a PC leaves a company's control all the data and company information will go with it. Even if the hard drive breaks down, the storage platters will still contain information which could be read once repaired.

In keeping with our policy of recognising user requirements we have introduced the V6000 HDD Max, a state-of-the-art one pass conveyor degausser designed for the volume erasure of hard drives. The specially designed high intensity coils ensure complete erasure of hard drives in large quantities, perfect for IT logistic and security providers.

Although in most cases this will render the hard drive inoperative, the cost of a replacement hard drive cannot be compared to the cost to a company if sensitive information can be read by a third party.

The performance of the V6000 HDD Max will satisfy requirements for large volumes of hard disk drives to be erased. Hard drives are placed on the belt and guided through the 7260 gauss erasure field. The V6000HDD Max regulates temperature to eliminate excessive heating of the hard drive casing. Up to 60-70 hard drives can be erased per hour.

With safety in mind and to meet the latest NCNIRP Magnetic Exposure Guidelines, the V6000HDD Max can be operated remotely via an infrared remote control.

V6000 HDD ^{max}

Media Handling:	Hard Drives: PC, Laptop and Server (2.5" and 3.5")
Power Supply:	230v 50Hz or 208-220v 60Hz
Current Rating:	Up to 20 amps
Degaussing Force:	7260 gauss
Dimensions (WxHxD):	19.2" x 31.5" x 27.5" 490mm x 800mm x 700mm
Throat Opening Dimensions:	Height: 1.02" (26mm) Width: 4.33" (110mm) Max length between cleats on belt = 7.48" (190mm)
Weight:	176lbs (80kg)
Throughput:	60-70 Hard drives per hour typical
Controls:	Mains On/Off Manual/Remote Key switch
Indicators:	Mains On/Off Erasure Field Metre Audible Field Metre

Warranty

12 months back to base, all parts and labour included.
Extended warranties also available.

Options

5 Drive Input Hopper
