PP-100 Discproducer

As easy to use as an office printer, the Discproducer can output up to 100 CDs/DVDs in a single session. The PP-100 prints and records up to 30 CDs or 15 DVDs per hour. It can also be used in print-only mode, printing up to 45 discs per hour.

PP-100 Auto Printer

As easy to use as an office printer, the PP-100AP can print onto 100 CDs/DVDs in a single session. It processes up to 95 discs per hour and is ideally suited for quick and efficient large batch production of professionally designed digital media.

PP-100N Discproducer

Like the PP-100, the PP-100N prints and records CDs and DVDs. In addition, it is networkable and specially optimized for working in groups. It can receive up to five jobs at the same time, and will publish them conveniently and reliably.

PP-100N Security Discproducer

In addition to being an all-in-one printer and recorder, the PP-100N Security is specially designed for applications requiring top-level security and protection of archived data: medicine, business, banking, public sector, and more.
