

# HCL ROBOTIC AUTOLOADER

## All-New Robotic Autoloader—Perfect Solution for Large Bulk Jobs

For unattended disc duplication runs, let the Microboards HCL Autoloader handle the work load. With a state-of-the-art robotic arm and eight drives, the autoloader will burn up to 104 CDs or 72 DVDs per hour.

- Complete standalone operation: No PC required
- Maximum 1000 disc capacity
- Multi-Master Recognition Technology (MMRT): Loads multiple masters at once to run multiple duplication jobs in succession.
- Sticky media separator option: Higher probability to separate sticky media.
- Multi-Language capability for English & Spanish
- Auto-Counter Technology: Displays the total number of discs successfully copied compared to desired output for each project.
